

Who works together to support HEALTHY EATING AND ORAL HEALTH IN VICTORIAN SCHOOLS

There are many ways to support a healthy eating culture in your school, and many organisations who can continue to build healthy eating and oral health messages into your curriculum, policies and practices.

A group of like-minded organisations that are passionate about healthy eating and oral health in schools have created a great resource to help you know where you can get support.

Use one or all of us, we are here to help!

Please help us promote this great resource. You can find the resource and some example social media posts below. Help us reach as many Victorian schools.

Link to resource

For schools and other organisations download the [general version](#).

If you are a local health organisation supporting your local schools you can download this [editable version](#) and add your details.
